Fighting Police Trauma: Practical Approaches to Addressing

Psychological trauma is damage to a person's mind as a result of one or more events that cause overwhelming amounts of stress that exceed the person's ability to cope or integrate the emotions involved, eventually leading to serious, long-term negative consequences. Trauma is not the same as mental distress or suffering, both of which are universal human experiences.

Mental Health Needs - OVC TTAC

The National Crime Victimization Survey is the United States' primary source of information on crime victimization. Each year, data is obtained from a nationally represented sample of 77,200 households comprising nearly 134,000 persons on the frequency, characteristics and consequences of criminal victimization in the United States.

Coercive Control: Update and Review - Evan Stark, Marianne

Aug 22, 2018 - Stress and trauma experienced by police officers in the line of duty can have negative impacts on officers' health and well-being. Psychological support is imperative to help officers maintain psychological well-being and to perform their duties efficiently. However, officers are often skeptical to seek psychological support.

The Psychological Impact of Incarceration: Implications

Dec 16, 2018 - One of the few surveys to include "psychological" abuse as well as physical violence was a nationally representative telephone survey of the victimization experiences of 4,549 youth, aged 0-17, conducted between January and May 2008.

Incarcerated women: Poverty, trauma and unmet need

Unresolved trauma can keep us excessively cautious and inhibited, or lead us around in ever-tightening circles of dangerous re-enactment, victimization, and unwise exposure to danger. 2,573 Kindle readers highlighted this.

Psychological trauma - Wikipedia

Apr 14, 2010 - Some studies have found that concurrence of victimization and developmental milestones can exacerbate psychological consequences (Office for Victims of Crime, 1998). Little is known about the presentation of PTSD in children.
